I am a Computer Engineering graduate with 12 years of experience in the IT business industry. Over the course of my career, I have worked as a Full-Stack Developer for six years, specializing in different platforms. Additionally, I have served as a Technical Lead, demonstrating leadership in project management, server hosting management, and the seamless integration of applications through REST APIs.

In pursuit of continuous enhancement in my role as a Front-end Developer, I have undertaken deliberate measures to refine my design proficiency by completing my studies as a graphic designer.
